PROJECTS

Portfolio Website

Personal Project

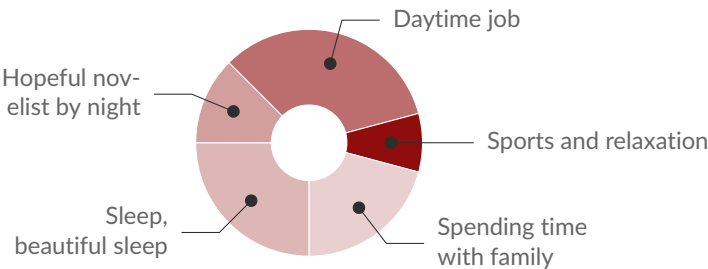

- 2025
- Designed and developed a personal portfolio website to show-case profile, skills, and featured projects.
- Built with a responsive layout, optimized performance, and smooth experience across desktop and mobile.
- Tech stack: Next.js, Tailwind CSS, TypeScript; deployed on Vercel.
- Source code: github.com/LongMyNgoc/Portfolio
- Website: nguyenphilongportfolio.vercel.app

Pokemon Ball Capture

Personal Project

- 2024
- Pokemon Ball Capture – A simple 2D Unity game where you catch falling Pokéballs while avoiding misses. The game features increasing difficulty, level progression, and a score-based win condition.
- Tech stack: Unity 2D, C#.
- Source code: github.com/LongMyNgoc/Pokemon-Ball-Capture
- Demo video: youtube.com/watch?v=jh3p5f8yR2k
- Link Download: longmyngoc.itch.io/pokemon-ball-capture

A DAY OF MY LIFE

CAREER OBJECTIVE

As an Information Technology student passionate about web, mobile, and game development, I am eager to continually learn and embrace new technologies, seeking opportunities to work in a dynamic and stable environment where I can enhance my skills and contribute to software development projects.
